Dear Parent/Carer

The maths faculty would like to invite you to PCSA on **Thursday 13 October 2016 at 5:30 pm** to attend a presentation where we can advise you on the ways in which you can help to support your son/daughter's achievement in mathematics for lower school.

Students are currently working extremely hard within their school hours, but we want to ensure that you have as much information as possible to support their progress during out of school hours too. In the past we have found that active parental engagement has been proven to play a significant role in improving students' grades.

Refreshments will be available from 5:15 pm. The evening will take the form of a presentation starting at 5:30pm lasting approximately 30 minutes in the main hall. After this, PCSA students will be on hand to demonstrate the mathematics resources which your son/daughter should be using to support their lower school studies. Maths teachers will also be on hand to answer any specific queries that you may have with regards to your son/daughter's progress and/or ways in which you can support them in their studies.

Thank you for your support and I look forward to meeting you next Thursday.

Yours sincerely

Andy Symes  
Head of Mathematics
