

# 8 top exam tips

## Get a good night's sleep

Getting enough sleep is crucial to help you stay focused.

## Get organised

Make sure you have everything you need the night before. Take a number of pens and pencils, and don't forget a calculator if you need one.

## Eat a meal beforehand

Remember to have lunch or breakfast before the exam to help you concentrate.

## Arrive at the exam early

Give yourself plenty of time to get to the venue so that you have time to relax before the exam.

## Drink water

It's important to stay hydrated, so take a bottle of water to the exam with you. Use a sports bottle cap to reduce the risk to spilling water on your paper.

## Stay calm

Sometimes this is easier said than done, but remember to take deep breaths if you find yourself getting nervous.

## Read the question

Don't lose marks by misinterpreting the question. Take the time to read through each question at least twice.

## Leave time to go through your paper

Leave enough time to go through your paper and check your answers at the end.
