Dear Parent/Carer

Year 7 and 8 Lower School Mathematics Information Evening

The maths faculty would like to invite you to PCSA on **Thursday 5 October 2017 at 5:30 pm** to attend a presentation where we can advise you on the ways in which you can help to support your son/daughter to achieve in mathematics for lower school.

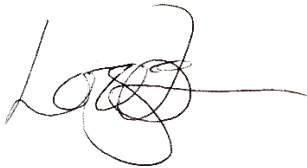

Students are currently working extremely hard within their school hours, but we want to ensure that you have as much information as possible to support their progress during out of school hours too. In the past we have found that active parental engagement has been proven to play a significant role in improving students' grades.

Refreshments will be available from 5:15pm. The evening will take the form of a presentation starting at 5:30pm lasting approximately 30 minutes in the main hall. After this, there will be a demonstration of the mathematics resources which your son/daughter should be using to support their lower school studies. There will also be an opportunity to ask any specific queries that you may have regarding you son/daughter's progress and/or ways in which you can support them in their studies.

Please can I ask you to complete the enclosed form and return to the maths department no later than Tuesday 3 October.

I look forward to meeting you then.

Yours sincerely

Lois Kerrison
Central Leader of Mathematics
