Dear Parent/Carer

Year 9 and 10 Upper School Mathematics Information Evening

In light of the new GCSE curriculum, the maths faculty would like to invite you to PCSA on **Thursday 28 September 2017 at 5:30pm** to attend a presentation. Refreshments will be available from 5.15 pm. The presentation will last approximately 30 minutes in the main hall, during which, we can advise you about ways in which you can help to support your son/daughter's achievement in their vital Year 9 and 10 mathematics journey towards their GCSE.

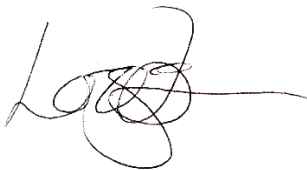

Year 9 and 10 students are currently working extremely hard in school hours. We want to ensure that you have as much information as possible to support their progress in out-of-school hours. During this evening, we will share with you some excellent resources to help you support their progress. In the past we have found that active parental engagement has been proven to play a significant role in improving students' grades.

After the presentation, you will have an opportunity to ask questions that you may have regarding you son/daughter's progress and ways in which you can support them in their studies.

Please can I ask you to complete the enclosed form and return to the maths department no later than Tuesday 26 September.

Thank you for your support and I look forward to meeting you.

Yours sincerely

Lois Kerrison
Central Leader of Mathematics
